

The French Chamber of Commerce and Industry in Hong Kong

Present:

# LA PATROUILLE DE FRANCE

Wednesday, 20 October 2004

### At the occasion of the Year of France in China

La Patrouille de France, the aerobatic team of the French Air Force, will be demonstrating in Hong Kong for the first time ever. Team members are elite pilots selected from different fighting units of the French Air Force

### A 35-minutes breathtaking show

Most of the manoeuvres will take place south of the headland outside of Ocean Park, after having smoke painted the skies to the tricolours of the French flag with a fly past of Victoria Harbour.

The team will show off their aerial ballet skills, which will include loops, high speed runs, close formation and low level flypasts in diamond, T and heart shape stunts.

Manoeuvring between 30 and 1,500 meters above water, at speeds varying between 200 and 600 km/hr, the team will offer you a show that will be remembered and relished for a long time.

The number of seats is limited. Book now to avoid any disappointment!
